

ELISA STROZYK

for

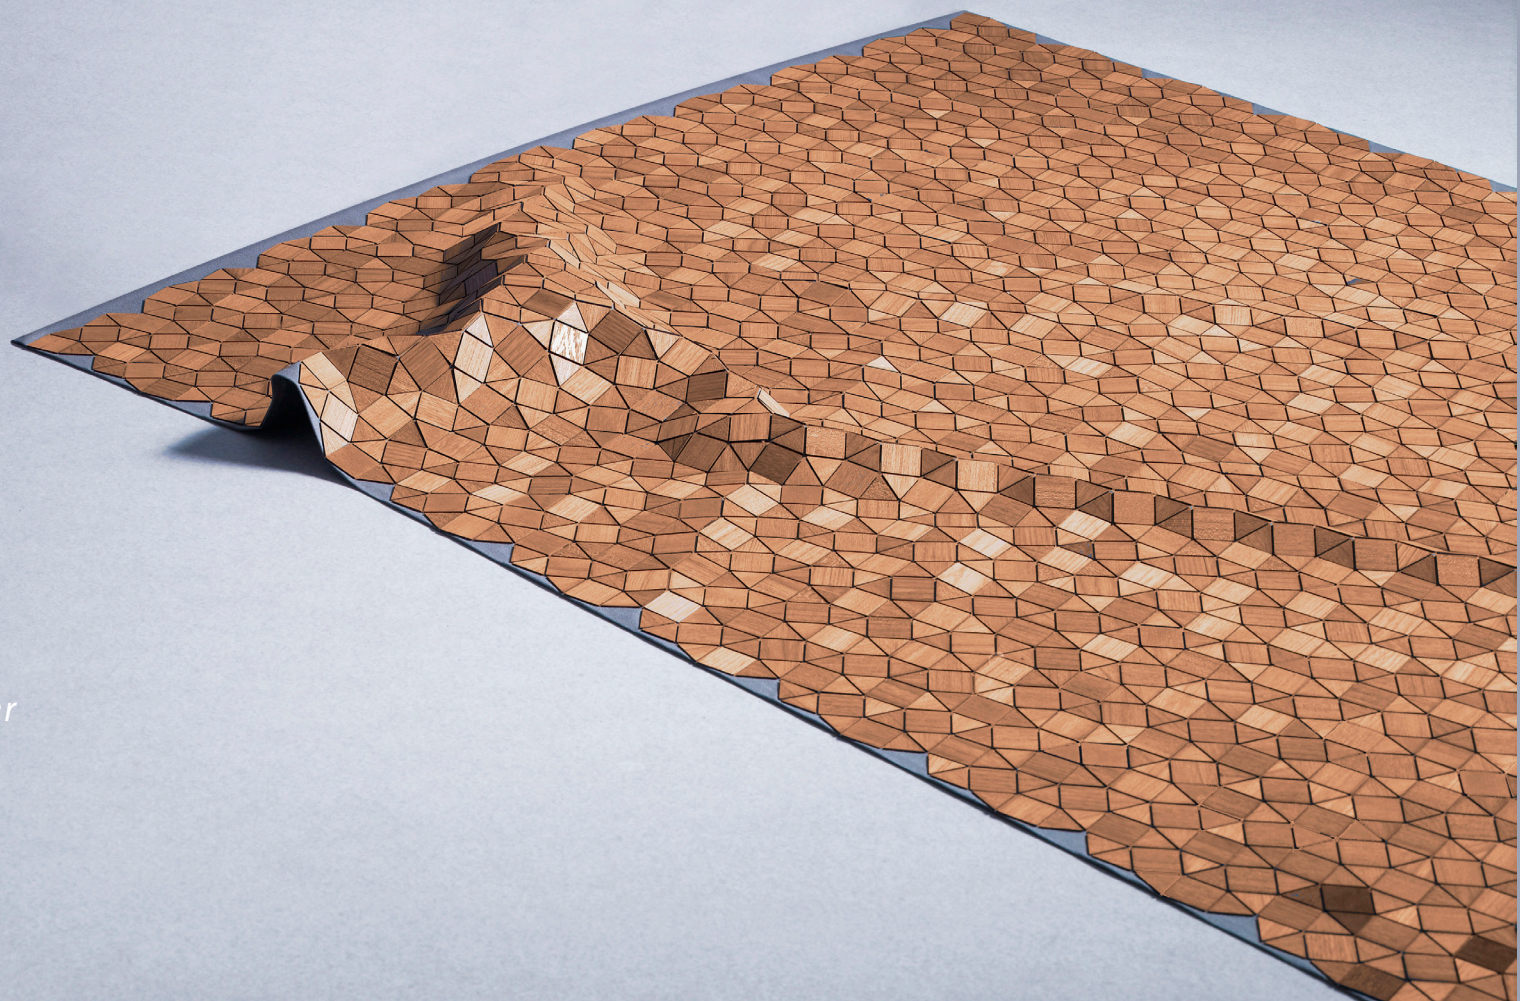

BÖWER

WOODEN-CARPET

The "wooden-carpet" is a hand-made product for the floor.
Together with the german company BOEWER
Elisa Strozyk developed 4 different designs.

Geometric wooden pieces compose a flexible surface,
able to perform in different three-dimensional shapes.
The material ranges between hard and soft, parquet and carpet,
blurring relationships between furniture and textiles.
The potential of the wooden carpet is its flexibility. It can be rolled
up and transported easily.
